GENERAL ANNOUNCEMENT

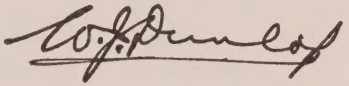
1953 SUMMER COURSES

ONTARIO DEPARTMENT OF EDUCATION

FOREWORD FROM THE MINISTER

Teachers who will complete next June their first year of teaching are probably giving some thought now to summer courses and they may wish to know what is to be gained by studying for a few weeks during July and part of August. Not only will they improve their status in the profession but they will make many new acquaintances and new friends; they will be students once more; they will receive new impetus, new inspiration; they will have an opportunity to learn how to avoid mistakes they may have made; and they will be better teachers and better citizens.

Writing as one who has attended summer courses in days gone by and who has organized and operated many summer courses over a long period of years, I know that I need not try to impress on experienced teachers the value of study during the summer whether such study be done in one of the courses described in this booklet or in one of the Universities of Ontario. Education continues throughout life.



Minister of Education.

March 3, 1953.

   Teachers-in-training at the Provincial Normal Schools and the Ontario College of Education are eligible for admission to any of the courses for which they are otherwise qualified.

2. Application forms for admission to the courses should be filled in and addressed to the Deputy Minister, Department of Education, Parliament Buildings, Toronto.

3. For the satisfactory organization of the courses, applications should reach the Department not later than **May 25.** No assurance can be given that applications received later than this date will be considered. Late applications will not be considered in any courses where it becomes necessary to limit the enrolment. Applicants are advised that Letters of Admission may not be mailed from the Department before June 8.

4. If, as a result of the small number of applicants, the Department should decide not to provide a course, applicants for admission thereto will be duly notified.

TRANSPORTATION

Reduced fares will be granted by the Canadian Passenger Association to teachers and dependent members of their families who accompany them, from stations in Canada. The teacher should purchase a one-way ticket at full fare from his home station to the place of the Summer Course and obtain from the ticket agent a standard convention certificate. Upon presentation of this certificate, signed by the principal of the course, a ticket for the return journey may be purchased at one-half of the regular one-way fare. These reduced rates may be obtained during the three days before the opening of the course and not more than three days after the close of the course, not counting Sundays. Return tickets are valid for 30 days and will permit of stop-overs, but they must be presented within three days of the close of the course.

2. In the five-week courses the classes will be organized and the work will begin not later than the morning of the second day.

ATTENDANCE

Since the courses are brief and the work concentrated, regular attendance is required. There is no provision for admitting teachers who are not prepared to attend regularly for the full period of the course.

Since each Summer course is a complete unit designed to occupy the full attention of those attending, it is not possible for a teacher to be admitted to more than one course during the same period.

Art

ELEMENTARY

To this course may be admitted an applicant who holds a Second Class or more advanced teaching certificate.

To enrol in this course no previous special training in art or crafts is necessary.

Rural teachers or those seeking a refresher course will find this course particularly valuable.

Those enrolled will be offered a wide choice of activities and units of study. Individual problems of the students will receive attention.

Students will complete several examples of art and crafts work and the integration of this work with other school activity will be stressed. Discussions of contemporary thought in philosophy, psychology and pedagogy connected with art and crafts will be held for those who are interested. Outstanding specialists in various fields of design will lecture on their particular fields, while the core work of the course will be guided by teachers who have had outstanding success in teaching in the ordinary classroom situation.

A candidate who, in the opinion of the staff of the summer course, shows an intelligent insight into the use of art and crafts in general education and a reasonable technical skill in the manual work completed in the course will be granted an Interim Elementary Art and Crafts Certificate.

Those enrolled in this course are advised to attend a series of lectures dealing either with recent developments related to art teaching or with trends connected with design.
